

# Jeffrey Mills Jr.

## Professional Web Developer with over 15 years of professional experience

Berlin, MD 21811

[jeffrey.mills@outlook.com](mailto:jeffrey.mills@outlook.com)

4439446597

As a highly experienced web developer with 15+ years of expertise, I am seeking remote work opportunities to leverage my skills in creating innovative, high-quality web solutions.

Throughout my career, I have developed a deep understanding of front-end and back-end web technologies and a passion for delivering user-friendly websites and web applications that exceed clients' expectations.

With my remote-ready setup and strong communication skills, I am confident that I can collaborate effectively with geographically distributed teams and contribute to the success of any project.

Authorized to work in the US for any employer

## Work Experience

---

### Web Developer

Self Employed Contractor - Berlin, MD

March 2020 to Present

During my time as an independent contractor I have developed websites and applications using the Laravel PHP framework and VueJS. I am currently in the process of developing a native mobile app using Flutter.

### Lead Developer

Skuba Design Studio - New Orleans, LA

August 2017 to March 2020

As Lead Developer at Skuba Design Studio it was my responsibility to oversee all aspects of development process. Working directly with Project Managers and UI/UX Designers, I made sure that deadlines were met and deliverables were of the highest quality. I would also mentor junior developers, and conduct/participate in interviews when needed.

### Web Developer

Skuba Design Studio - New Orleans, LA

April 2013 to August 2017

As a Web Developer at Skuba Design Studio, I worked under the supervision of the Lead Developer. I was tasked with developing websites for clients using the latest web standards and using technologies that made the sense most for the current project.

### Web Developer / LMS Administrator

Chesapeake College - Wye Mills, MD

November 2006 to March 2013

At Chesapeake College I was responsible for maintaining our Learning Management System. This involved Windows Server 2003 administration, and Tier-3 technical support. When I wasn't working on LMS related activities, I would develop websites and web applications for departmental use.

## Customer Support Technician

Internet Connection, Inc. - Easton, MD

June 2005 to November 2006

My first professional role as a web developer. I started at Internet Connection as a Support Tech where I would field support tickets from our 2000+ client base. In this role I learned a lot about the Linux operating system, DNS, HTTP Protocols, Web Architecture etc.. Once I started a more developer focused role, I aided in the redesign of the company website. The website was originally developed using tables for layout. I was tasked with converting them to CSS based layouts.
